

Reasons to Choose *The Kangaroo Forest*

Thinking of changing Pre-Schools? Wondering which school is best for your child? Confused what to look for among the numerous private Pre-Schools in the area? Take a look at what The Kangaroo Forest offers...

1

Personal Attention...

The Kangaroo Forest has small class sizes that allow for individualized attention. Our low student to teacher ratio provides staff the ability to focus on each child's needs throughout the day. Your child is recognized as a key member of our learning family each and every day.

2

Standard of Academic Excellence...

We utilize the best private academic curriculum available. Students are challenged with programs that create an intrinsic motivation to learn. Rather than teach to a standardized test, The Kangaroo Forest adheres to a standard of excellence through individualized instruction. All lessons are aligned to both ABeka and Texas Education Agency standards for a seamless transition into higher education.

3

Whole-Child Program...

The Kangaroo Forest provides balanced educational opportunities where social-emotional development, character development, academics, individual interests, and extra-curricular activities are all equally emphasized.

4

Family Involvement...

Parents are encouraged to actively participate in their child's education by taking part in numerous activities throughout our center. We offer many events that focus on family involvement and provide a fun atmosphere for parents and children to interact within the school setting.

5

Owner on Site...

Independently owned and operated, The Kangaroo Forest provides consistent daily management of the center from its two owners. With degrees and backgrounds in education, early childhood development, and business, both owners and the center director uphold the highest standards in developmentally appropriate early childhood education.

6

Location, Location, Location...

Our facility is located in the Indian Springs Village of The Woodlands. The community boasts a vast amount of family centered amenities. The Kangaroo Forest is conveniently located near Woodlands Parkway and Kuykendahl, both major routes of travel for business commuters in the area. Our centralized location also allows us to provide transportation to and from many of the public elementary campuses in the community, making The Kangaroo Forest an excellent choice for after-school care.

7

Superior Facility...

Utilizing the best materials in early childhood education on the market, The Kangaroo Forest offers a large array of learning manipulatives. Cleanliness is prioritized as a daily practice by staff members and students so as to maintain a beautiful facility that encourages a healthy learning atmosphere. The building features child-safety measures and security mechanisms.

8

Safety First...

The Kangaroo Forest operates below the state standard capacity set for the center. Therefore, staff and management know each student and their family. We are able to set firm disciplinary policies and emphasize personal self-control while acting as partners with parents. Small classroom settings allow for communication on an individual basis and quick resolution of problems should they arise.
